Professional Summary

Cybersecurity enthusiast with hands-on experience in VAPT, Web Application Security Testing, and API Security Testing. Skilled in uncovering vulnerabilities aligned with OWASP Top 10 using tools such as Burp Suite, OWASP ZAP, Nmap, and Postman. Strong interest in Application Security and VAPT roles with a focus on practical remediation.

Technical Skills

Security Testing: VAPT, Web App Security, API Security

Tools: Burp Suite, OWASP ZAP, Nmap, Wireshark, Postman, Nikto, SSLScan, DirBuster

Concepts: OWASP Top 10, SQL Injection, XSS, CSRF, Authentication Security, Session Management, SSL/TLS

Networking: TCP/IP, DNS, HTTP/HTTPS, Packet Analysis

Operating Systems: Windows, Linux

Security Projects

Vulnerability Assessment and Penetration Testing (VAPT) – Zero Bank Application

Executed a complete VAPT engagement on a simulated banking web application using Burp Suite Professional, OWASP ZAP, Nmap, and Wireshark. Identified authentication flaws, session management issues, and misconfigurations mapped to OWASP Top 10. Findings were documented with CVSS-based risk ratings and clear remediation guidance, strengthening the application's security posture.

API Security Assessment – DummyJSON REST API

Performed API security testing using Burp Suite and Postman in line with OWASP API Top 10. Discovered weaknesses in authentication, authorization, and input validation, and provided actionable recommendations to improve API resilience against common attack vectors.

BrokenCrystals Web Security Assessment

Assessed a deliberately vulnerable web application to evaluate authentication and session handling mechanisms. Reported critical vulnerabilities with detailed remediation steps, demonstrating the ability to translate technical findings into practical security improvements for developers and stakeholders.

Certifications

- Cisco Ethical Hacker
- Cisco Introduction to Cybersecurity

Education

Bachelor of Engineering (B.E.) in Computer Engineering

Sandip Institute of Engineering and Management, Nashik

Graduation: July 2025

Proficient Areas

Application Security | Vulnerability Assessment & Penetration Testing (VAPT) | API Security Testing
| Web Application Security | OWASP Top 10 | OWASP API Top 10
